

QuarkXPress: Collect for Output

1. Choose File > Collect for Output.

2. Specify a location in which to save all files.

Select the five boxes shown in this diagram to ensure all the Fonts and Images that are needed to print your project are included in the folder. Then click Save.

Alert: You are about to copy font software which has been supplied by you. Such font software may have specific restrictions for copying and distribution. Please consult the license agreement for each font vendor before you continue. By continuing, you represent that you are in compliance with and take full responsibility for complying with the requirements of such third-party agreements.

Cancel Do not Collect Fonts **OK**

3. All the fonts you supply are used for your project only. Click OK and the Collect for Output will finalize.
